PROFESSIONAL PROFILE

Data Analytics Specialist with 5+ years bridging supply chain operations and data-driven decision-making. Experienced in building semantic models, DAX-optimized dashboards, and AI-powered data agents on Microsoft Fabric. Track record implementing ERP Dynamics 365 and reducing critical incidents by 30% through predictive analytics. Currently expanding into agentic AI systems, RAG, and workflow automation through applied AI training.

SKILLS

SQL · Python (Pandas, NumPy) · DAX · Power Query (M) · Power BI · Tableau · Microsoft Fabric · Microsoft Dynamics 365 F&O
Data Warehousing · ETL/ELT · OLAP/OLTP · Power Automate · n8n · Databricks (Delta Lake) · LLMs · RAG · LangChain ·
LangGraph · MCP · Predictive Analytics · SCOR Model · Lean Six Sigma (Black Belt)

PROFESSIONAL EXPERIENCE

Data Analytics Specialist

Centro Internacional de Mejoramiento de Maíz y Trigo (CIMMYT) | March 2026 – Present

- Built AI-powered data agents in Microsoft Fabric for business-area reporting, connected to live semantic models with governed, validated responses.
- Migrated a static Excel report requiring 16–20 hours of monthly manual preparation to Power BI Service, delivering real-time data access with 2-hour scheduled refresh cycles and implementing Row-Level Security by role.
- Built an automated comment-capture solution powered by Power Automate, enabling users to submit contextual comments directly within the report and visualize them in the dashboard for tracking purposes.
- Delivered two days of hands-on Power BI training to internal staff, covering star schema design and 28+ DAX measures.

Supply Chain and Power BI Consultant

GCG Consulting | February 2025 – February 2026

- Lead implementation of integrated asset maintenance management solutions utilizing Microsoft Dynamics 365 Finance and Operations, CRM Field Service, and Power BI for Business Intelligence development.
- Applied Microsoft's end-to-end process methodology to ensure successful ERP deployments, focusing on system integration and business process optimization.
- Collaborated on the strategic Tren Maya infrastructure project, coordinating with multiple national and international vendors.
- Conducted process analysis sessions, translating business requirements into technical specifications, designing solutions with cross-functional consultant teams, and providing key user training.
- Developed Business Intelligence dashboards using Power BI to monitor critical KPIs and provide actionable insights for strategic decision-making.

Supply Chain and Microsoft Dynamics Finance & Operations Consultant

BPC Consulting | April 2024 – October 2024

- Implemented Microsoft Dynamics 365 Finance and Operations ERP system for a manufacturing company, successfully deploying Procurement and Sourcing, Warehouse Management, and Sales modules to optimize supply chain operations.

Supply Chain and Operations Consultant

Indep Business Partner | July 2022 – April 2024

- Executed a digital transformation success case recognized by Microsoft, guiding BACO (a leading stationery manufacturer) from initial requirements gathering to successful go-live implementation.
- Applied the APICS SCOR (Supply Chain Operations Reference) framework as a strategic model to optimize business processes and train operational and administrative teams in ERP system usage, resulting in increased supply chain efficiency.
- Successfully implemented Warehouse Management System in Microsoft Dynamics 365 Finance and Operations, developing comprehensive inventory management workflows for receipts (purchases, transfers, returns), internal movements (production supply), and shipments (picking, order preparation).
- Designed and implemented advanced warehouse management models with WMS technology, improving inventory accuracy, traceability, and agility in logistics operations for raw materials warehouses, work-in-process, finished goods, and picking areas for sales.

PROFESSIONAL EXPERIENCE

Health Care Compliance Internship

Johnson & Johnson | April 2021 – February 2022

- Developed Power BI dashboards and Excel reports for business intelligence monitoring, reducing critical incidents by 30% through predictive analytics
- Optimized processes through internal audits and report automation, improving data quality and data governance
- Centralized information in SharePoint, facilitating data accessibility and enhancing collaboration between regional teams

Trainee de Mejora Continua

I-Wey Textil | Julio 2019 – Agosto 2020

- Adopted DMAIC methodologies to implement 5S in warehouses and storage facilities to improve operational efficiency, resulting in a 20% productivity increase and a reduction in operational irregularities.
- Documented workflows in BPMN with Bizagi, standardizing processes and facilitating audits.
- Managed the end-to-end implementation of a point-of-sale system, optimizing inventory management and sales data.
- Carried out regular audits to ensure 5S compliance, maintaining an efficient and sustainable work environment.

DATA & AI ENGINEERING

Currently expanding into applied AI through a diplomado at Tecnológico de Monterrey (February 2026 – Present):

- Covering LLMs, RAG, multi-agent systems, and orchestration frameworks including LangChain, LangGraph, and MCP. Practical exposure to Hugging Face, PyTorch, and cloud AI services and different platforms

EDUCATION AND PROFESSIONAL DEVELOPMENT

- **Bachelor's Degree in Industrial Engineering** — Universidad Nacional Autónoma de México, 2017 – 2022
- **Artificial Intelligence Technologies Specialist** — Tecnológico de Monterrey, February 2026 – Present
- **Lean Six Sigma Black Belt** — Universidad Nacional Autónoma de México, March – September 2024

ADDITIONAL TRAINING:

- | | |
|--|---|
| • Databricks: Arquitectura Delta Lake — Platzi (2025) | • Workflows Profesionales con n8n — Platzi (2025) |
| • Data Warehousing & Data Lakes — Platzi (2025) | • SCRUM Professional — Platzi (2025) |
| • Python para Ciencia de Datos — Platzi (2025) | • Business Intelligence Fundamentals — Platzi (2025) |
